Info about A1's patented Concrete Leveling system	We pump limestone slurry under concrete through our small 1" holes. Patented A1 process uses only 5 p.s.i. pressure so void fills properly. After void is full slab is lifted to correct level. Less than 1% of ours ever need repumped. Smaller hole, lower pressure, reusable holes, different material than conventional mudjacking. 3 year unlimited warranty against resettling. 1 year warranty for caulking. Warranties are for areas that were charged for on original estimate or invoice.

Returning a copy of this assessment signed or typed by you is an expression of your willingness to proceed & agrees to terms. Only then, & upon A-1 approval, will any binding obligation exist on the part of either party. Estimate good for 60 days. A-1 not responsible for damage to undisclosed drainage, plumbing, electrical lines, cracks or existing cracks that become exposed. A-1 not responsible if material pumps into undesignated areas. Customer must make sure soil slopes away from concrete so water flows away & can't get under the concrete within 30 days if not supplied by A-1. Payment due upon completion. Unpaid amounts over 30 days 8% late fee. 45 days past due collection & lien fees & warranty voided. A-1 may place sand on concrete to help blend in colors. Wait 24 hrs to sweep off. No driving on slabs or caulking for 24 hours unless otherwise specified. This is a repair & may not come out like new concrete. Credit cards accepted with crew & at our office at no additional charge. Over phone and typically online not offered. ACH Check payments available online through quick books invoice at no charge also.
