1/7/22

Thank you for the opportunity to assist you in your facility at 3755/3765 Hartsock Ln. After looking at your main entry doors and discussing your needs, we recommend installing, a hard wired Altonics PT724A timer and battery backed up power supply in a box located in the rooms adjacent to the doors on each building, to unlock the **right hand door only*** during specified hours with wire molding (where needed) to the mullion and an electric strike would be installed to work with your existing panic hardware.

We can provide and install this system for \$2050.00** (**per Building**).

* If you want both doors to be unlocked on the timer, an additional electric strike for each building would be needed. This would be an additional \$550.00** each.(**or \$2300.00** per Building**)

**Prices quoted are less applicable taxes.

Please feel free to contact us at 632-7588 regarding any questions you may have or to schedule the work. This estimate is subject to changes by American Lock & Key after 30 days.

Thank You,

Ron
